RCEM Trainees Research Engagement Day on behalf of the Academic Trainees

Date: Thursday 14 January 2021

Venue: Virtual

RCEM accredited for CPD. GMC domains covered: 1, 2, 3

This year's virtual research engagement day is open to all academic and non-academic trainees, foundation doctors, advanced practitioners, nurses, paramedics and others interested in emergency research.

As well as an update from TERN and practical guidance from senior our academics on how to turn your research idea into a reality, we'll be exploring themes such as big data, precision medicine, qualitative research and the importance of patient-oriented outcomes in emergency research.

Who should attend?

- EM trainees with an interest in, or who are active in, EM research
- Medical students with an interest in, or who are active in, EM research
- Nurses or AHPs with an interest in, or who are active in, EM research

09:00 – 09:05	Join the virtual meeting space
09:05 - 09:10	Welcome and introduction
	Session 1: TERN Update Chair: Robert Hirst, EM ST3, Southmead Hospital, and TERN Fellow
09:10 - 09:50	Updates from ITERN - NERAA Etimbuk Umana, EM Specialist Registrar, ITERN Lead, Children's Health Ireland, Temple Street, Dublin
	What is TETRIS? Harriet Tucker, PhD Fellow, Centre for Trauma Sciences, and EM Consultant St George's Hospital

	Update from TERN Robert Hirst, EM ST3, Southmead Hospital, and TERN Fellow
	Panel Q&A
	Session 2: Your research profile and disseminating your work Chair: Laura Cottey, EM ST3, Derriford Hospital
09:50 - 10:35	Presentations from Charlie Reynard, NIHR Clinical Doctoral Research Fellow – EM
	Disseminating the research: Lessons learnt from the TIRED study Laura Cottey, EM ST3, Derriford Hospital
	Sharing your work with the wider world Amy King, Media and Communications Officer, University of Plymouth
	Panel Q&A
10:35 - 10:45	Break
	Session 3: Linking precision medicine and EM Chair: Mohammed Elwan. Honorary Research Fellow and EM Registrar, University Hospitals of Leicester NHS Trust
10:45 - 11:25	Precision emergency medicine Tim Coats, Professor of EM, University Hospitals of Leicester NHS Trust
	Haemodynamic precision: Individualising fluid therapy in ED Mohammed Elwan, Honorary Research Fellow and EM Registrar, University Hospitals of Leicester NHS Trust
	Non-invasive diagnostics in critical illness: infrared
	thermal imaging Matt Charlton, Honorary Clinical Lecturer and Consultant in ECMO, Intensive Care Medicine and Anaesthesia, University Hospitals of Leicester NHS Trust
	Panel Q&A
	Session 4: Existing support structures and experience within EM research: using what's around you Chair: Anisa Jafar, NIHR ACL ST5 EM, Manchester
11:25 - 12:05	The NIHR Incubator: how it can help you Rick Body, Clinical Professor of EM and EM Consultant - University of Manchester and Manchester Royal Infirmary Charlie Reynard, NIHR Clinical Doctoral Research Fellow – EM Tom Roberts, EM ST4 and RCEM Doctoral Fellow, University of the West of England

@RCEMevents | #RCEMevents

11:25 - 12:05	Tips on funding: RCEM & NIHR Jason Smith, EM Consultant, Derriford Hospital, Defence Professor of Emergency Medicine, Academic Department of Military Emergency Medicine, Royal Centre for Defence Medicine and Chair, RCEM Research Committee Panel Q&A
12:05 - 12:45	Lunch
	Session 5: Asking the difficult questions: qualitative research Chair: Daniel Darbyshire, NIHR Doctoral Fellow and EM ST5, Lancaster University and Salford Royal Hospital
12:45 - 13:25	We're all natural qualitative researchers Daniel Darbyshire, NIHR Doctoral Fellow and EM ST5, Lancaster University and Salford Royal Hospital
	Interpretative phenomenological analysis Katherine Fitzgerald, Clinical Psychologist, Aneurin Bevan University Health Board
	Video reflexive ethnography Aimee Charnell, PhD Candidate, Leeds Institute of Medical Education and Surgical Research Fellow, Medical Officer, 212 Field Hospital (R).
	Panel Q&A
	Session 6: Patient Reported Outcomes in EM Research Chair: James van Oppen, NIHR Doctoral Research Fellow and EM Specialty Registrar, University of Leicester
13:25 - 14:05	Existing outcome measures for EM research and QI initiatives James van Oppen, NIHR Doctoral Research Fellow and EM Specialty Registrar, University of Leicester
	What matters to patients? Blair Graham, Lecturer in Urgent and Emergency Care and EM Specialty Registrar, University of Plymouth)
	Development and implementation of PROM-ED Samuel Vaillancourt, Associate Scientist and Emergency Physician, St. Michael's Hospital, Toronto
	Panel Q&A

Session 7: All about the numbers Chair: Jamie Miles, NIHR Clinical Doctoral Research Fellow (Paramedic), RCEM Trainee ACP Beyond logistic regression - choosing machine learning in EM Jamie Miles, NIHR Clinical Doctoral Research Fellow (Paramedic), RCEM Trainee ACP Health economics in emergency care Peter McMeekin, Professor of Health Economics, Northumbria University Panel Q&A Session 8: The evidence based primary survey Chair: Sophie Richter, EM SPR and Wellcome Trust PhD Fellow, University of Cambridge and Daniel Whitehouse, ACCS EM Academic Clinical Fellow, University of Cambridge Tracheal intubation in TBI Benjamin Gravesteijn, Doctoral Researcher, Department of Public Health, Centre for Medical Decision Making, Erasmus University Medical Centre, Rotterdam, the Netherlands EtCO2 monitoring in moderate-severe TBI James Price, EM SPR and Clinical Research Fellow, East Anglian Air Ambulance, Department of Research, Audit, Innovation, & Development (RAID), East Anglian Air Ambulance, Norwich, UK Outcomes after traumatic cardiac arrest Ed Barnard, Consultant in EM and Pre-Hospital EM, East Anglian Air Ambulance, Norwich, UK and Senior Lecturer, Academic Department of Military Emergency Medicine Outcome prediction following moderate and severe TBI Isabel Retel Helmich, Researcher and PhD candidate, Department of Public Health, Centre for Medical Decision Making, Erasmus University Medical Centre, Rotterdam, the Netherlands Summary and final comments Alasdair Corfield, Consultant in Emergency and Retrieval Medicine, Royal Alexandra Hospital, Paisley; Honorary Clinical Associate Professor, University of Glasgow and RCEM Associate Professor		
Chair: Jamie Miles, NIHR Clinical Doctoral Research Fellow (Paramedic), RCEM Trainee ACP Beyond logistic regression - choosing machine learning in EM Jamie Miles, NIHR Clinical Doctoral Research Fellow (Paramedic), RCEM Trainee ACP 14:20 - 15:05 Health economics in emergency care Peter McMeekin, Professor of Health Economics, Northumbria University Panel Q&A Session 8: The evidence based primary survey Chair: Sophie Richter, EM SPR and Wellcome Trust PhD Fellow, University of Cambridge and Daniel Whitehouse, ACCS EM Academic Clinical Fellow, University of Cambridge Tracheal intubation in TBI Benjamin Gravesteijn, Doctoral Researcher, Department of Public Health, Centre for Medical Decision Making, Erasmus University Medical Centre, Rotterdam, the Netherlands EtCO2 monitoring in moderate-severe TBI James Price, EM SPR and Clinical Research Fellow, East Anglian Air Ambulance, Department of Research, Audit, Innovation, & Development (RAID), East Anglian Air Ambulance, Norwich, UK 15:05 - 15:50 Outcomes after traumatic cardiac arrest Ed Barnard, Consultant in EM and Pre-Hospital EM, East Anglian Air Ambulance, Norwich, UK and Senior Lecturer, Academic Department of Military Emergency Medicine Outcome prediction following moderate and severe TBI Isabel Retel Helmrich, Researcher and PhD candidate, Department of Public Health, Centre for Medical Decision Making, Erasmus University Medical Centre, Rotterdam, the Netherlands Summary and final comments Alasdair Corfield, Consultant in Emergency and Retrieval Medicine, Royal Alexandra Hospital, Paisley; Honorary Clinical Associate Professor, University of Glasgow and RCEM Associate Professor.	14:05 - 14:20	Break
Jamie Miles, NIHR Clinical Doctoral Research Fellow (Paramedic), RCEM Trainee ACP 14:20 - 15:05 Health economics in emergency care Peter McMeekin, Professor of Health Economics, Northumbria University Panel Q&A Session 8: The evidence based primary survey Chair: Sophie Richter, EM SPR and Wellcome Trust PhD Fellow, University of Cambridge and Daniel Whitehouse, ACCS EM Academic Clinical Fellow, University of Cambridge Tracheal intubation in TBI Benjamin Gravesteijn, Doctoral Researcher, Department of Public Health, Centre for Medical Decision Making, Erasmus University Medical Centre, Rotterdam, the Netherlands EtCO2 monitoring in moderate-severe TBI James Price, EM SPR and Clinical Research Fellow, East Anglian Air Ambulance, Department of Research, Audit, Innovation, & Development (RAID), East Anglian Air Ambulance, Norwich, UK Outcomes after traumatic cardiac arrest Ed Barnard, Consultant in EM and Pre-Hospital EM, East Anglian Air Ambulance, Norwich, UK and Senior Lecturer, Academic Department of Military Emergency Medicine Outcome prediction following moderate and severe TBI Isabel Retel Helmirich, Researcher and PhD candidate, Department of Public Health, Centre for Medical Decision Making, Erasmus University Medical Centre, Rotterdam, the Netherlands Summary and final comments Alasdair Corfield, Consultant in Emergency and Retrieval Medicine, Royal Alexandra Hospital, Paisley; Honorary Clinical Associate Professor, University of Glasgow and RCEM Associate Professor		Chair: Jamie Miles, NIHR Clinical Doctoral Research
Peter McMeekin, Professor of Health Economics, Northumbria University Panel Q&A Session 8: The evidence based primary survey Chair: Sophie Richter, EM SPR and Wellcome Trust PhD Fellow, University of Cambridge and Daniel Whitehouse, ACCS EM Academic Clinical Fellow, University of Cambridge Tracheal intubation in TBI Benjamin Gravesteijn, Doctoral Researcher, Department of Public Health, Centre for Medical Decision Making, Erasmus University Medical Centre, Rotterdam, the Netherlands EtCO2 monitoring in moderate-severe TBI James Price, EM SPR and Clinical Research Fellow, East Anglian Air Ambulance, Department of Research, Audit, Innovation, & Development (RAID), East Anglian Air Ambulance, Norwich, UK Outcomes after traumatic cardiac arrest Ed Barnard, Consultant in EM and Pre-Hospital EM, East Anglian Air Ambulance, Norwich, UK and Senior Lecturer, Academic Department of Military Emergency Medicine Outcome prediction following moderate and severe TBI Isabel Retel Helmrich, Researcher and PhD candidate, Department of Public Health, Centre for Medical Decision Making, Erasmus University Medical Centre, Rotterdam, the Netherlands Summary and final comments Alasdair Corfield, Consultant in Emergency and Retrieval Medicine, Royal Alexandra Hospital, Paisley; Honorary Clinical Associate Professor, University of Glasgow and RCEM Associate Professor	14:20 - 15:05	Jamie Miles, NIHR Clinical Doctoral Research Fellow
Session 8: The evidence based primary survey Chair: Sophie Richter, EM SPR and Wellcome Trust PhD Fellow, University of Cambridge and Daniel Whitehouse, ACCS EM Academic Clinical Fellow, University of Cambridge Tracheal intubation in TBI Benjamin Gravesteijn, Doctoral Researcher, Department of Public Health, Centre for Medical Decision Making, Erasmus University Medical Centre, Rotterdam, the Netherlands EtCO2 monitoring in moderate-severe TBI James Price, EM SPR and Clinical Research Fellow, East Anglian Air Ambulance, Department of Research, Audit, Innovation, & Development (RAID), East Anglian Air Ambulance, Norwich, UK 15:05 - 15:50 Outcomes after traumatic cardiac arrest Ed Barnard, Consultant in EM and Pre-Hospital EM, East Anglian Air Ambulance, Norwich, UK and Senior Lecturer, Academic Department of Military Emergency Medicine Outcome prediction following moderate and severe TBI Isabel Retel Helmrich, Researcher and PhD candidate, Department of Public Health, Centre for Medical Decision Making, Erasmus University Medical Centre, Rotterdam, the Netherlands Summary and final comments Alasdair Corfield, Consultant in Emergency and Retrieval Medicine, Royal Alexandra Hospital, Paisley; Honorary Clinical Associate Professor, University of Glasgow and RCEM Associate Professor		Peter McMeekin, Professor of Health Economics,
Chair: Sophie Richter, EM SPR and Wellcome Trust PhD Fellow, University of Cambridge and Daniel Whitehouse, ACCS EM Academic Clinical Fellow, University of Cambridge Tracheal intubation in TBI Benjamin Gravesteijn, Doctoral Researcher, Department of Public Health, Centre for Medical Decision Making, Erasmus University Medical Centre, Rotterdam, the Netherlands EtCO2 monitoring in moderate-severe TBI James Price, EM SPR and Clinical Research Fellow, East Anglian Air Ambulance, Department of Research, Audit, Innovation, & Development (RAID), East Anglian Air Ambulance, Norwich, UK 15:05 - 15:50 Outcomes after traumatic cardiac arrest Ed Barnard, Consultant in EM and Pre-Hospital EM, East Anglian Air Ambulance, Norwich, UK and Senior Lecturer, Academic Department of Military Emergency Medicine Outcome prediction following moderate and severe TBI Isabel Retel Helmich, Researcher and PhD candidate, Department of Public Health, Centre for Medical Decision Making, Erasmus University Medical Centre, Rotterdam, the Netherlands Summary and final comments Alasdair Corfield, Consultant in Emergency and Retrieval Medicine, Royal Alexandra Hospital, Paisley; Honorary Clinical Associate Professor, University of Glasgow and RCEM Associate Professor		Panel Q&A
Benjamin Gravesteijn, Doctoral Researcher, Department of Public Health, Centre for Medical Decision Making, Erasmus University Medical Centre, Rotterdam, the Netherlands EtCO2 monitoring in moderate-severe TBI James Price, EM SPR and Clinical Research Fellow, East Anglian Air Ambulance, Department of Research, Audit, Innovation, & Development (RAID), East Anglian Air Ambulance, Norwich, UK 15:05 - 15:50 Outcomes after traumatic cardiac arrest Ed Barnard, Consultant in EM and Pre-Hospital EM, East Anglian Air Ambulance, Norwich, UK and Senior Lecturer, Academic Department of Military Emergency Medicine Outcome prediction following moderate and severe TBI Isabel Retel Helmrich, Researcher and PhD candidate, Department of Public Health, Centre for Medical Decision Making, Erasmus University Medical Centre, Rotterdam, the Netherlands Summary and final comments Alasdair Corfield, Consultant in Emergency and Retrieval Medicine, Royal Alexandra Hospital, Paisley; Honorary Clinical Associate Professor, University of Glasgow and RCEM Associate Professor		Chair: Sophie Richter, EM SPR and Wellcome Trust PhD Fellow, University of Cambridge and Daniel Whitehouse, ACCS EM
James Price, EM SPR and Clinical Research Fellow, East Anglian Air Ambulance, Department of Research, Audit, Innovation, & Development (RAID), East Anglian Air Ambulance, Norwich, UK 15:05 - 15:50 Outcomes after traumatic cardiac arrest Ed Barnard, Consultant in EM and Pre-Hospital EM, East Anglian Air Ambulance, Norwich, UK and Senior Lecturer, Academic Department of Military Emergency Medicine Outcome prediction following moderate and severe TBI Isabel Retel Helmrich, Researcher and PhD candidate, Department of Public Health, Centre for Medical Decision Making, Erasmus University Medical Centre, Rotterdam, the Netherlands Summary and final comments Alasdair Corfield, Consultant in Emergency and Retrieval Medicine, Royal Alexandra Hospital, Paisley; Honorary Clinical Associate Professor, University of Glasgow and RCEM Associate Professor	15:05 - 15:50	Benjamin Gravesteijn, Doctoral Researcher, Department of Public Health, Centre for Medical Decision Making, Erasmus
Outcomes after traumatic cardiac arrest Ed Barnard, Consultant in EM and Pre-Hospital EM, East Anglian Air Ambulance, Norwich, UK and Senior Lecturer, Academic Department of Military Emergency Medicine Outcome prediction following moderate and severe TBI Isabel Retel Helmrich, Researcher and PhD candidate, Department of Public Health, Centre for Medical Decision Making, Erasmus University Medical Centre, Rotterdam, the Netherlands Summary and final comments Alasdair Corfield, Consultant in Emergency and Retrieval Medicine, Royal Alexandra Hospital, Paisley; Honorary Clinical Associate Professor, University of Glasgow and RCEM Associate Professor		James Price, EM SPR and Clinical Research Fellow, East Anglian Air Ambulance, Department of Research, Audit, Innovation, & Development (RAID), East Anglian Air
Isabel Retel Helmrich, Researcher and PhD candidate, Department of Public Health, Centre for Medical Decision Making, Erasmus University Medical Centre, Rotterdam, the Netherlands Summary and final comments Alasdair Corfield, Consultant in Emergency and Retrieval Medicine, Royal Alexandra Hospital, Paisley; Honorary Clinical Associate Professor, University of Glasgow and RCEM Associate Professor		Ed Barnard, Consultant in EM and Pre-Hospital EM, East Anglian Air Ambulance, Norwich, UK and Senior Lecturer,
Alasdair Corfield, Consultant in Emergency and Retrieval 15:50 - 16:00 Medicine, Royal Alexandra Hospital, Paisley; Honorary Clinical Associate Professor, University of Glasgow and RCEM Associate Professor		Isabel Retel Helmrich, Researcher and PhD candidate, Department of Public Health, Centre for Medical Decision Making, Erasmus University Medical Centre, Rotterdam, the
